

## Project

Five year Asbestos Removal Framework

## Client

UCL

## Description

In June 2015, Maylarch won a place on a 5 year Asbestos Removal Framework for the prestigious University College London. The UCL Estate is a diverse mix of approximately 220 properties ranging in age, design, function and location although the majority fall within the bounds of the M25.

The scope of the framework contract includes a wide range of activities such as:

- Licensed / Notifiable and Non Licenced Work
- Asbestos Removal, Remediation, Encapsulation and Repairs
- Decontamination Services and Environmental Cleans
- Emergency Response (attendance to site within 2 hours.)
- Disposal of Asbestos Waste
- Production of relevant documentation
- Acting as Principal Contractor if required

## Outcome

Several projects have already been undertaken by Maylarch as part of the framework and the dedicated team we deployed has quickly developed a strong relationship with the UCL Estates team.

Building on its long experience in the Education sector, Maylarch is bringing extensive industry knowledge and highly experienced members of staff to ensure a safe and efficient service to all UCL stakeholders (staff, students and other contractors)

***“ Maylarch were successful on an major OJEU led procurement exercise, with UCL as a world class institution requiring a significantly skilled and experienced asbestos removal contractor to assist with the servicing of its complex estate. The contractor performs very well, and exceeds expectation, and is highly recommended ”***
